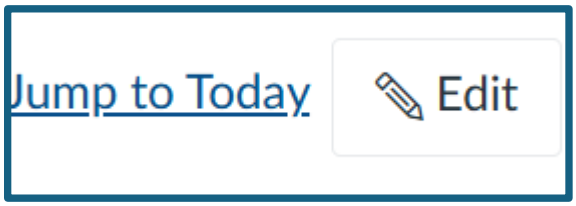
Uploading Your Syllabus

The syllabus page is a great place to put your syllabus. Choose Edit at the top of the oage and then you can paste the entire syllabus, or you can upload a document. To upload, choose the three vertical dots if you do not see the symbol below



This symbol, the Page, allows you to import a file. Click it and then find your file**. I prefer to type out a title, highlight the words, and then import file, but that is not necessary.**

The syllabus page will automatically list out Assignments and items that have an upcoming due date. You can also add things to the calendar, and those items will also appear on the syllabus page. You do not need to do anything on this page other than upload the syllabus.
